

USSN: 10/607,698Docket No. 58399US002**Amendments to the Specification**

Amend the Title at page 1, line 4 as follows:

PATTERNED COATING METHOD EMPLOYING POLYMERIC COATINGS

Amend paragraphs 0011 and 0015 as follows:

[0011] Fig. 5 is a cross-sectional view of the article of Fig. 3 after the adhesive tape has been peeled away and the release polymer has been removed.

[0015] By using the term "film former" we refer to a material that can be coated in a thin film (e.g., at a thickness of about 0.05 mm) on a suitable substrate to form a substantially continuous coating.
